🌐 LANGUAGES

English (C1)

Turkish (Native)

👤 PROFILE

Frontend Developer with 3+ years of professional experience in building scalable and maintainable web applications. Specialized in modern JavaScript and TypeScript-based frameworks, particularly Vue.js and Nuxt.js, with hands-on experience in React.js and Next.js projects. Experienced in developing enterprise-level admin panels, data-driven interfaces, and complex user workflows. Familiar with Node.js, Express.js, MongoDB, and MySQL, supporting effective collaboration with backend teams and API-driven development. Strong focus on clean code, performance, and maintainable architecture. Effective team player with solid problem-solving skills and a strong understanding of frontend best practices.

🏢 PROFESSIONAL EXPERIENCE

Frontend Developer, PayTR Ödeme ve Elektronik Para Kuruluşu A.Ş. 🔗

05/2024 – Present | Turkey | Remote

- Migrated large-scale frontend modules from Vue 2 / Nuxt 2 / Vuex architecture to Vue 3 / Nuxt 3 / Pinia, improving maintainability and long-term scalability.
- Refactored legacy components and pages to align with modern frontend best practices and Composition API patterns.
- Developed complex, data-driven admin panels using advanced table solutions such as Vuetify DataTable Server and DevExpress DataGrid.
- Implemented dynamic filtering, sorting, pagination, and server-side data handling for high-volume transactional data.
- Built reusable UI components and standardized patterns across multiple modules to ensure consistency and code reuse.
- Integrated REST APIs with robust state management, handling loading states, error flows, and edge cases.
- Collaborated closely with backend teams to align frontend architecture with API contracts and business requirements.
- Actively contributed to performance improvements, bug fixes, and incremental refactoring of existing systems.
- Worked on role- and permission-based UI rendering aligned with authorization rules.

Frontend Developer, Budunai Bilişim ve Teknoloji San. Tic. Ltd. Şti. 🔗

09/2023 – 03/2024 | Ankara, Turkey | Onsite

- Contributed to the development of an artificial intelligence-enhanced job search platform similar to LinkedIn for Tubitak, utilizing cutting-edge technologies and innovative design principles to create a seamless user experience.
- Led the design and implementation of the company's website, incorporating modern web development techniques and responsive design to ensure compatibility across various devices and browsers.
- Spearheaded the development of a mobile gaming application, leveraging mobile development frameworks and best practices to deliver a high-quality and engaging gaming experience to users.

Assistant Frontend Developer Instructor, Bootcamp

04/2023 – 04/2024 | United States | Remote

- Provided personalized guidance to aspiring frontend developers through one-on-one sessions, aiding them in preparing effective resumes and LinkedIn profiles to enhance their professional branding.
- Supported students in frontend development projects, providing hands-on guidance with HTML, CSS, JavaScript, and modern frontend frameworks.
- Assisted with code reviews, debugging, and project-based learning to improve students' practical development skills.
- Provided technical mentorship and interview preparation support as part of the bootcamp program.
